

SYED MUHAMMAD AFIF

Frontend Developer | React | Next.js | Tailwind CSS

Karachi, Pakistan | +92 336 1122870 | s.mafif222@gmail.com | github.com/Safif2000 | [linkedin.com/in/smafif-frontend-developer](https://www.linkedin.com/in/smafif-frontend-developer)

SUMMARY

A highly motivated Frontend Developer with 2+ years of experience creating scalable, mobile-first UIs using **React, Next.js, and Tailwind CSS**. Skilled in optimizing performance, maintaining clean code, and enhancing user engagement. Passionate about building visually engaging, high-quality web experiences.

SKILLS

Languages: HTML, CSS, JavaScript (ES6+)

Frameworks/Libraries: React, Next.js, Tailwind CSS, Bootstrap

Tools: Git, GitHub, Webpack, Babel, Vercel

EXPERIENCE

Frontend Developer | Sleekhive Technologies Pvt Ltd | Oct 2023– Current

- Migrated 2 key brand websites from a static HTML/CSS/JS stack to Next.js, resulting in a **30% improvement in Lighthouse performance scores** and a **20% increase in organic search traffic** due to enhanced SEO capabilities.
- Refactored and modernized the codebase for **7+ legacy websites**, reducing code duplication by **40%** and improving page load times by an average of **25%**.
- Developed and maintained responsive, pixel-perfect user interfaces for over 10 client and in-house websites, ensuring cross-browser compatibility and a consistent user experience.
- Collaborated with a team of 3 developers on the migration of **`kogents.ai`** to a scalable

Next.js application, improving maintainability and component reusability.

Tech Stack: HTML, CSS, JavaScript, Next.js, Tailwind CSS

Frontend Developer Intern | UBL Insurers | Apr 2023 – Jul 2023

- Led the redesign of the customer-facing website, implementing a responsive, mobile-first design that led to a **15% increase in user engagement** on mobile devices.
- Overhauled the multi-step KYC form by breaking it into logical sections and providing real-time validation, which **decreased form abandonment by 20%** and improved data accuracy.
- Collaborated with the development team to implement best practices for front-end development, ensuring clean and maintainable code using React.

Tech Stack: React | JavaScript

PROJECTS

An Improved Polyp Detection (FYP)

- Designed a web application where users input images and videos related to polyps.
- Utilized the YOLOv5 model for polyp detection, **achieving a 92% accuracy rate** on a custom dataset.
- Provided the percentage of polyp detection to aid in medical analysis.

Hotel Management System

- Designed and developed a system for managing customer information, rooms, reservations, checkouts, and payments.
 - Built front-end web application pages using **React**, and managed application state using **React Context API**.
-

Education

BS Software Engineering | Sir Syed University | 2019 – 2023
